**CONVEYANCE.**—In transit all goods are at the risk of the purchaser, and no insurance is effected unless we are so instructed. When the route and mode of transit and method of consignment is left to us, we do everything in the interest of our customer to forward **expeditiously** and as **cheaply as possible**; but as it is not always possible to make these conditions coincide, we are always glad to have instructions from the purchaser, e.g., as to whether the goods are to go by water or rail, or partly by one and partly by the other; if by water whether insurance is to be effected or not; if by rail, whether by goods or passenger train; also if the goods are to be booked at any particular rate, such as Grain, Pea, or Agricultural Seed Rate. We do not hold ourselves responsible for any errors which may arise during transit.

**NEW CUSTOMERS** will always find us ready to serve them, provided that they send Cash or a satisfactory reference with their first order.

**EARLY ORDERS** are always very much appreciated, as they allow us to make headway with their preparation before the press of the season commences.

**ALL TELEGRAMS** should be *signed*, to avoid delay.

**OUR NOVELTIES AND SPECIALITIES** can only be obtained in our Sealed Packets, or direct from us, and are delivered at the rate of 24 retail packets to the dozen, or two for one, *i.e.*, half price. Any number supplied.

If the purchaser does not accept them on these terms he must return them at once, as they are sold upon these conditions only. Where purity or growth are mentioned, they are only for guidance, and without guarantee.

the selection and saving of Stock Seeds which is necessary to ensure

# ROOT SEEDS.

All our Stock Seeds are saved from specially-chosen transplanted Roots.

We have been for over half a century Growers and Selectors upon our own farms, at and near Langport, of Special Stocks of Swedes, Mangolds and Turnips, and we honestly believe and state with the utmost confidence that purer and choicer kinds than our Special Sorts have never yet been sold. This refers in proportionate degree to our strains of other varieties. ALL are to be relied upon as the best of their kind, and undergo rigid selection.

To some varieties we have affixed prices which we are willing to accept at the moment of going to press, but we enter into no engagement to adhere to these prices for any period longer than suits ourselves.

### KELWAY & SON'S LANGPORT PRIZETAKER

**YELLOW GLOBE** (Title Registered). The entire stock was originally selected from one bulb. It has a very small top and very few fibrous roots, it is therefore lifted with a minimum of labour, and is fed with a minimum of waste; its symmetrical shape and attractive colour make it unequalled for exhibition. The flesh is of the densest consistency and most nutritive quality, and it reaches a very great size; consequently it is an exceedingly heavy cropper, and is absolutely unsurpassed in this respect. Having been fixed as a variety for such a number of years, its sportive character is practically nil, but we are untiring in our annual labour of selecting stock roots to grow from. We send a very fine coloured representation of this variety to those who stock it, mounted on canvas and rollers ready for hanging (see illustration herewith).

Put up in 2-lb., 4-lb., 7-lb., and 14-lb. sealed printed canvas bags, at 48/- per cwt. (carriage paid). The variety can only be obtained from **Kelway and Son, Langport.**

## Mangold—continued.

### KELWAY'S IMPROVED CORNER'S YELLOW GLOBE.

This needs no introduction in the West of England. The stock originated in our neighbourhood, and seed was obtained by us from Mr. Corner himself upon its introduction. Though so near perfection at that time, the great care we have bestowed upon it has evidently been appreciated by our customers . . . . .

### KELWAY'S RE-SELECTED MAMMOTH (or GIANT) LONG RED.

The properties of the original Mammoth are well known. This is a very careful selection from it, having in view the elimination of coarseness whilst keeping it of a large size . . . . .

### KELWAY'S LORD OF THE ISLES INTERMEDIATE.

A wonderful improvement upon the ordinary Intermediate, being a more fixed stock of the correct Intermediate type. Very rich in quality and clean lifting . . . . .

**KELWAY'S EXHIBITION GOLDEN TANKARD.** We have never had greater satisfaction in introducing any sort than we have in recommending this superb variety. It was found amongst our "Model" Golden Tankard, to which it is superior in the dark colour of the skin and the rich golden hue of the flesh. The perfect "Tankard" shape of the original "Model" is retained together with its highly saccharine quality and extreme solidity of flesh. An enormous weight per acre is obtained from it.

(Registered Title.)

**The Hardy Heavy Cropping****Purple Top Swede.**

This variety is an enormous cropper, one of the most hardy and disease-resisting sorts in cultivation, seldom getting mildewed, and the highest quality Swede in cultivation. It possesses the useful property of growing freely in all kinds of soils. It is as near as possible *globus* shaped, with a very short neck, dwarf foliage, and a clean single tap root. It possesses very dense sound flesh. The portion of the root growing out of the ground is of a deep plum colour. We annually save large quantities of this variety entirely from our own stock seed on account of the increasing favour with which it meets. Our stock is still as pure as ever.

A fine representation of this variety, 2 feet by 3 feet, painted in oils from nature, mounted on canvas, and framed, will be sent to all who stock it.—See annexed illustration.

Put up in 2 lb., 4 lb., 7 lb., and 14 lb. sealed printed canvas bags, at 90/- per cwt. (carriage paid). The variety can be obtained only from Kelway & Son, Langport.

**Swede Turnips. Purple-topped Varieties.**

**KELWAY'S**  
**Langport Monarch,**

32/- per bushel.

The *Langport Monarch* is rather higher in the shoulder than the *Langport Mammoth*, and the root grows further out of the ground. The upper portion of the bulb is of a bright carmine colour. The flesh is very firm, the top short, and the absence of fibrous or forked roots remarkable. The crop per acre is unsurpassed; but it does not keep so long as the *Langport Mammoth*.

KELWAY'S HERO.	We recommend this as the finest form of a reliable heavy cropping and long-keeping Onion. The bulbs are exceedingly handsome when matured, and are continually taking prizes where exhibited. The colour of the skin is a tawny yellow or very light brown; the bulbs attain a very great size, and on account of the density in texture of the flesh are of enormous weight. They are of great depth without being unduly swollen at the neck, and thus in shape are between the "globe" and "flat" varieties. We highly recommend it for general use as well as for exhibiting .....	10 0
